

The Professional Liability Insurance Committee of Professional Surveyors Canada has the duty of providing the best overall professional liability insurance program to surveyors across Canada. As part of that, we are continually looking for ways to improve the program. In 2014, we went to a Request for Proposal process for an insurance broker. This has now been successfully completed and we are pleased to announce that The CG&B Group will be the new brokers for the program.

The CG&B Group Inc. is a division of Arthur J. Gallagher Canada Limited, the 4th largest brokerage in Canada. They operate in every province and are widely regarded in the insurance industry as one of the leading brokerages for professional liability insurance. They specialize in developing Professional Association Group Errors and Omissions Liability programs. CG&B knows and understands the surveying profession as they have been the insurance broker representing the Association of Ontario Land Surveyors for over 27 years. Their relationship has been built on a solid foundation of trust, insurance knowledge and exceptional customer service.

CG&B will work with the PLIC to continue to offer enhancements to the Professional Liability program and offer members additional products and services. Based on CG&B's long history of partnering with surveyors, strong business relationship with ENCON, and our experience with developing and managing Association programs, we are excited to represent the members of Professional Surveyors Canada.

[Mark Sampson](#) – The CG&B Group

We look forward to working closely with Professional Surveyors Canada and CG&B to continue to offer an insurance program that provides outstanding service and extensive risk management resources to surveyors across Canada.

[Dave Cook](#) – ENCON Group

We are sad to part ways with JLT, our previous broker, but are excited to start on this path with our new partner, CG&B. We will be in contact with all policy holders to manage the transition to CG&B, which will be seamless and not impact coverage for policy holders in any way. Until further notice, continue to contact JLT for any endorsements or Certificates of Insurance that you may require. Any new claims should be made directly to Encon using the newclaims@encon.ca email address.

We thank all surveyors for your continued support over the years and we will keep working to improve the insurance program as we move forward.
